

7.2 - Best Practices

7.2.1 - Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual.

The two best practices are as follows:

1. Excellent Industry-Institute interface
2. Strong mentorship system.

Personnel from the Hospitality industry visit the College to conduct special sessions or as invitees for events. Due to the excellent relationships our department share with the industry, the industrial training of the Hospitality Studies students can be done in top hotels of the city. Top hotel groups visited our institution in 2023-24 for the recruitment of our graduating students.

As far as mentorship is concerned, every student is known by name by the staff. In the Hospitality Studies department there is a class teacher for every class, and each student also has a mentor teacher. During their industrial training, each student is assigned a mentor teacher. Students in need of financial help are identified by the faculty of the department and referred to our Principal and they are provided with scholarships / financial aid. The College also has a counselor; it has a Dean of Students who coordinates student extra-curricular activities and is available to students in case of need. The College follows an open door policy and students can also approach the Vice-Principal and Principal.
